Rules Governing the Sanitation of Lodging Establishments

Regional Meeting #1 2022

Overview

- Introduction & Definitions
- Preparing for the Inspection
- Conducting the Inspection
- Finishing the Inspection
- Review & Inspection Scenario

15ANCAC 18A.1800

Rules Governing the Sanitation of Lodging Establishments

You will need:

- 1. The Rules Governing the Sanitation of Lodging Establishments 15A NCAC 18A .1800
- 2. Lodging Inspection Form
- 3. Lodging Marking Instructions
- 4. Not Clean / Poor Repair Matrix
- 5. A copy of the current NC Food Code

Definitions (.1821)

Term	Definition
Lodging Establishment	Means all hotels, motels, inns, tourist homes, and other places providing lodging accommodations for pay.
	Facilities described in G.S. 130A-250 (1) through (5) shall not be regulated as a "lodging establishment."
	For the purposes of this Section, the term "lodging establishment" also includes bed and breakfast homes and bed and breakfast inns.

Lodging Establishment	Definition
Bed & Breakfast Home	Bed & Breakfast Home - Serves the breakfast meal, the lunch meal, the dinner meal, or a combination of all or some of these three meals, only to overnight guests of the home. No more than eight guest rooms .
Bed & Breakfast Inn	 Bed & Breakfast Inn - Means a business of at least <u>nine but not</u> more than twelve guest rooms that offers bed & breakfast accommodations for a period of less than one week, that meets the following requirements: Does not serve food or drink to the general public for pay Serves the breakfast meal, the lunch meal, the dinner meal, or a combination of all or some of these three meals only to overnight guests of the business.
Food Establishment Permit	Must meet all .2600 Rules.

Food Service in Lodging Establishments

Lodging Establishment	Requirements
Continental Breakfast	Must meet the Memorandum of Agreement (MOA) between NCDA&CS and NCDHHS This MOA allows for regulatory authority to evaluate a continental breakfast area. Refer to the MOA for guidance.
Limited Food Services Establishment	Limited Food Services Establishments located in lodging facilities are limited to reheating foods that have been pre-cooked in accordance with G.S. 130A-247 (7).

Term	Definition
Clean	Means washed and free from dirt, marks, or unwanted matter.
Linen	Means fabric items such as bedding, towels, cloth hampers, cloth napkins, tablecloths, wiping cloths, and work garments including cloth gloves.
Furnishings	Means furniture, fittings, window coverings, and other accessories, including decorative accessories.
Physical Facilities	Means the structure and interior surfaces of a lodging establishment, including furnishings and accessories such as soap and towel dispensers and attachments, such as light fixtures and heating or air conditioning system vents.

Inspection Frequency (FY July 1-June 30)

Bed and Breakfast Homes	One/fiscal year
Bed and Breakfast Inns	Two/fiscal year (One per 6 months)
Lodging (motels and hotels)	One/fiscal year

Quick Check

A Bed & Breakfast Home is a private home offering bed and breakfast accommodations of ____ or less rooms for a period of less than a week.

A Limited Food Service Establishment in a lodging facility can cook and serve raw sausage patties.

A. True

B. False

A Bed & Breakfast Inn can have a maximum of rooms.

A. [12]

B. 8

C. 6

D. 4

Preparing for the Inspection

Establishment File Review

- Inspection history
- Facility permit and conditions
- Complaints
- Food service (if provided)
- Water supply & wastewater disposal

Equipment Needed

- Thermometer
- Alcohol swabs or suitable means to sanitize thermometer probe
- Chemical test kits
- Flashlight
- Hair restraint/beard guard
- Forms and administrative materials
- PPE, as needed

1. PIC Present; certification by accredited program; performs duties

IN/OUT At bed and breakfast homes and inns the person in charge (PIC) has three assigned responsibilities – Presence; Demonstration of Knowledge; and Duties. This item is marked OUT of compliance if any **one** of the responsibilities is not met.

- A. Person in charge is present This item is marked OUT of compliance if there is no PIC per 2-101.11(A) and (B).
- **B.** Demonstration of Knowledge The PIC has three options for demonstrating knowledge. This item is marked IN compliance if the PIC meets at least one of the options. The three options for demonstration of

Applicable Rule Section:

.1822 (a*) Management and Personnel

Applicable Code Section:

2-101.11 Assignment*

2-102.11 (A), (B) and (C)(1), (4)-(16) Demonstration*

2-103.11 (A)-(P)Person-In-Charge-Duties*

This is accomplished by 1) discussion with the PIC, and 2) verified through observation that the systems or controls are actually being implemented. This concept is commonly referred to as Active Managerial Control. This item must be marked OUT of compliance when there is a pattern of non-compliance and obvious failure by the PIC to ensure employees are complying with the duties listed in § 2-103.11. Since marking this item out of compliance requires judgment, it is important that this item not be marked for an isolated incident, but rather for an overall evaluation of the PIC's ability to ensure compliance with the duties described in § 2-103.11.

N.A. This item shall be marked N.A. for Lodging Establishments that are not bed and breakfast homes or bed and breakfast inns

Conducting the Inspection

When You Arrive

- Enter the business entrance of the facility
- Introduce yourself
- Verify ownership
- Invite the manager or responsible staff member to accompany you

Where Do You Start?

- Inspect areas depending on their location and activity:
 - Continental breakfast
 - Guest rooms
 - Laundry
 - Vending areas
 - Storage areas
 - Dumpster/mop areas

PIC Present, Certification, Duties

- Person in Charge (PIC) present
- Demonstration of knowledge
- Duties of the PIC
- #1 on Inspection Sheet

Management, employee knowledge; responsibilities and reporting

- Employee Health Policy in place:
 - Illnesses
 - Symptoms
 - Exclusion/restriction
- Duties of PIC
- #2 on Inspection Sheet

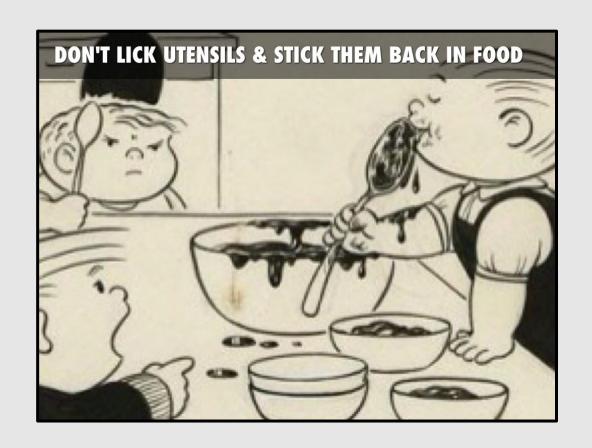

Use of reporting, restriction and exclusion

- No ill employees observed
- PIC to exclude or restrict employees
- #3 on Inspection Sheet

Proper eating, tasting, drinking, or tobacco use

- Employee eating, drinking, or use any form of tobacco in designated area
- Employees may drink from a closed container
- Employee may not use a utensil more than once to taste food
- #4 on Inspection Sheet

Personal cleanliness; hair restraints; clean outer clothing; no discharge from eyes, nose, or mouth

- Food employee requirements:
 - Maintenance fingernails
 - Jewelry prohibition
 - Hair restraints
- #5 on Inspection Sheet

Hands clean and properly washed; no bare hand contact with RTE foods

- Proper handwashing
- Hand antiseptics usage
- No bare hand contact with RTE foods
- Pre-approval alternative procedures for no bare hand contact
- #6 on Inspection Sheet

Food obtained from approved sources, received at proper temperature; food in good condition, safe, unadulterated; shellstock identification; parasite destruction

- Approved Sources
- Received at proper temperature
- Food in good condition, safe, unadulterated
- Shellstock identification
- Parasite destruction
- #7 on Inspection Sheet

Food separated and protected from cross-contamination

- Food stored to prevent cross-contamination
- Gloves used properly
- Customer self-service:
 - Family style dining allowed
 - Exemption for self-service area
- #8 on Inspection Sheet

Food protected from environmental or other sources of contamination

- Ice:
 - Stored to prevent contamination in all establishments
 - Dispensed without exposing stored ice to guests
- #9 on Inspection Sheet

Potentially hazardous (time/temperature control for safety) food properly cooked/reheated; consumer advisory

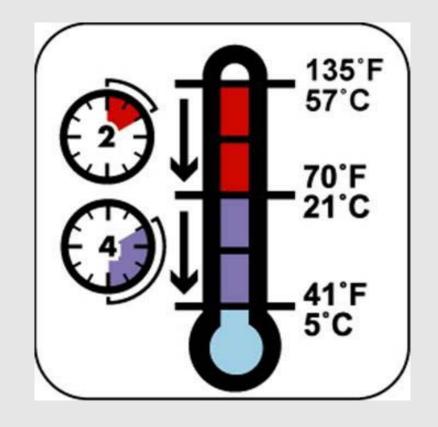

- Raw animal foods cooked properly
- Consumer advisory provided (where needed)
- Foods reheated properly
- #10 on Inspection Sheet

Potentially hazardous (time/temperature control for safety) food properly cooled; approved methods used

 PHF/TCS foods cooled properly using approved methods

• #11 on Inspection Sheet

Potentially hazardous (time/temperature control for safety) food properly cold/hot hold

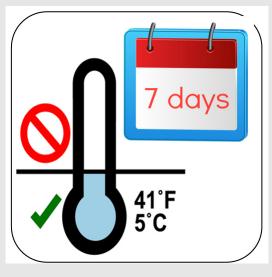

- PHF/TCS foods held at 41°F or below, 135°F or above
- PHF/TCS foods held using TPHC procedure
- Frozen food maintained frozen
- #12 on Inspection Sheet

Proper Date Marking

- PHF/TCS foods date marked when required
- PHF/TCS foods that have passed their date mark disposed of properly
- #13 on Inspection Sheet

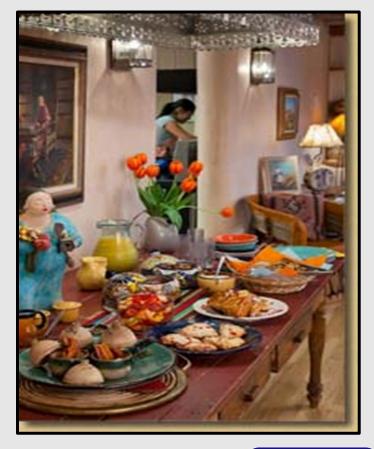

Quick Check

Additional sneeze protection is required for this setup in a bed & breakfast facility.

A. True

A facility is allowed to provide this type of ice machine in vending areas for guest self-service.

A. True

Food employees in a Bed & Breakfast Home are exempt from wearing a hair restraint.

A. True

Equipment, food and non-food contact surfaces approved, cleanable, properly designed, constructed and used

- Food contact surfaces provided meet 4-1 and 4-2 of the Food Code
 - Cleanable
 - Properly constructed and designed
 - In good repair
- Residential equipment is allowed
- #14 on Inspection Sheet

Equipment, food and non-food contact surfaces approved, cleanable, properly designed, constructed and used

- **Equipment** provided meets 4-1 and 4-2 of the Food Code
 - Cleanable
 - Properly constructed and designed
 - In good repair
- Residential equipment is allowed
- #14 on Inspection Sheet

Utensils, equipment properly stored, dried, and handled

- Food contact surfaces of equipment and kitchenware shall be:
 - Air-dried
 - Handled and stored to protect from contamination
- #15 on Inspection Sheet

Warewashing facilities installed, maintained and used; guest room sinks sanitized when necessary

- Adequate warewashing facilities available
- Can a two-compartment sink be used to wash, rinse, and sanitize multi-use utensils? Is a variance required?

Yes. A two-compartment sink can be used.

- If a dishmachine will be used to sanitize multiuse utensils, it must have a sanitizing option.
- #16 on the Inspection Sheet

Warewashing facilities installed, maintained and used; guest room sinks sanitized when necessary

- Multi-use eating and drinking utensils can be washed in guest rooms
- Sinks in guest rooms must be sanitized before washing multi-use utensils
- SOP can be used to ensure proper procedures are followed
- #16 on Inspection Sheet

Food-contact surfaces cleaned and sanitized; sanitizer at proper concentration

- Sanitizer approved and maintained as required in Part 4-5
- Equipment for preparing coffee/tea kept clean
- Sanitizing is not required for eating and drinking utensils provided in guest rooms

• #17 on Inspection Sheet

Cooking surfaces of equipment and non-food contact surfaces clean

- Food contact surfaces of cooking and baking equipment cleaned at least daily
- Non-food contact surfaces of equipment kept clean
- #18 on Inspection Sheet

Single-use and single-service articles properly used and stored

- Must be discarded after each use
- Stored and handled to prevent contamination
- #19 on Inspection Sheet

Single-use and single-service articles properly used and stored

Thermometer provided; test strips provided

- Food temperature measuring device with small diameter probe provided
- Test kit or other device provided for testing concentration of sanitizer used by the facility
- #20 on Inspection Sheet

Quick Check

Coffee and tea makers in guest rooms must be sanitized after being cleaned.

A. True

Multi-use eating and drinking utensils can be washed in the guest room.

A. True

A dishmachine can be used to sanitize multi-use utensils if it has a sanitizing option.

A. True

Water, Plumbing and Waste

WATER, PLUMBING AND WASTE (.1823, .1825, .1826)

26	IN	OUT		Furnishings clean and in good repair; guest room fixtures clean and sanitized between guests	4	2	0				
27	IN	OUT		Physical facilities installed, maintained, and clean	4	2	0				
28	IN	OUT		Insects and rodents present; live animals prohibited from food preparation, storage, sales, display, or dining	4	2	0				

Water, Plumbing, and Waste

- All lodging establishments shall comply with Chapter 5 of the Food Code
- Chapter 5 includes:
 - 5-1 Water
 - 5-2 Plumbing Systems
 - 5-3 Mobile
 - 5-4 Sewage, Other Liquid Waste, and Rainwater
 - 5-5 Refuse, Recyclables and Returnables

Handwashing sinks supplied and accessible; toilet tissue supplied

- A handwashing sink shall be provided:
 - Food preparation areas
 - Separate handwashing sink not required for B&Bs permitted prior to April 2017 and only serve a breakfast meal
 - Warewashing areas (can be the same one used in kitchen)
 - In or immediately adjacent to toilet rooms
- #21 on the Inspection Sheet

Handwashing sinks supplied and accessible; toilet tissue supplied

In areas where clean and soiled linens are handled:

An approved handwashing sink is required

OR

An approved hand hygiene program is required

Hand Hygiene Program

- Can be used in lieu of installing a handwashing sink where clean and soiled linens are handled
- Program must be approved by the Regulatory Authority
- Different options are available for facilities to use, based on a case-by-case review of the operation
- #21 on the Inspection Sheet

Standard Operating Procedure (SOP) Hand Hygiene Program

Purpose

To provide effective guidelines for an approved hand hygiene program at lodging establishments

Rationale

A handwashing sink, located to allow use by employees handling clean and soiled linen, shall be provided. Facilities prior to October 1st, 2017 that do not have handwashing lavatories in soiled linen areas as required shall not be required to install additional lavatories if an approved hand hygiene program is used.

Training Requirements

An approved hand hygiene program must include the following:

- Employees shall understand the importance of handwashing after handling soiled linens and prior to handling clean linens. Effective handwashing will prevent contamination of linens and hands.
- Each employee that handles linens shall be effectively trained with the expectation of proper hand washing procedures, when to wash, and where to wash.
- Handwashing and handling of linen training shall occur during new hire training and should be part of re-training when necessary. Once employees are trained they should sign the Training Log.

Hand Hygiene Program

The following procedures are vital in ensuring employees understand what is expected by the lodging establishment.

Handwashing Procedure – Procedure must include proper handwashing methods

- Rinse under clean, running warm water
- Apply an amount of cleaning compound recommended by the cleaning compound manufacturer Rub together vigorously for at least 10 to 15 seconds while:
 - Paying particular attention to removing soil from underneath the fingernails during the cleaning procedure
 - Creating friction on the surfaces of the hands and arms or surrogate prosthetic devices for hands and arms, finger tips, and areas between the fingers
- Thoroughly rinse under clean, running warm water
- Immediately follow the cleaning procedure with thorough drying using a method as specified under
 - To avoid recontaminating their hands or surrogate prosthetic devices, employees may use disposable paper towels or similar clean barriers when touching surfaces such as manually operated faucet handles on a handwashing sink.

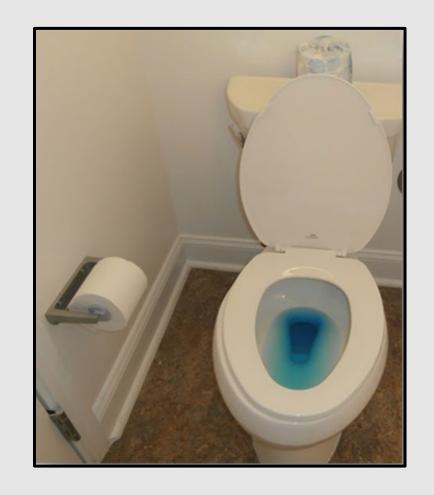

Handwashing sinks supplied and accessible; toilet tissue supplied

- A handwashing sink shall be supplied with:
 - Hand soap
 - Approved hand-drying method
- Handwashing sinks in guest rooms and common areas supplied with soap and clean towels
- #21 on the Inspection Sheet

Handwashing sinks supplied and accessible; toilet tissue supplied

- Baths, handwashing sinks, and toilets provided for each guest room or unit in lodging establishments constructed on or after December 1, 1988
- Each toilet supplied with toilet tissue
- #21 on the Inspection Sheet

Water from approved backflow prevention; plumbing in good repair

- Water from approved source
- Backflow prevention devices provided where required
- Plumbing in good repair
- # 22 on Inspection Sheet

Service sink or other approved method; mop storage

- Service sink provided for:
 - Cleaning of mops and floor cleaning tools
 - Disposal of mop water and similar liquid waste
- Service sink is curbed, has a floor drain, and is conveniently located
- Toilets and urinals **cannot** be used as a service sink
- #23 on Inspection Sheet

Sewage and wastewater disposal

- Facility is served by:
 - Public sewage treatment plant
 - On-site wastewater system that is properly constructed, maintained, and operated
- System is maintained in good repair and installed according to Law.
- #24 on Inspection Sheet

Quick Check

A separate hand sink not required for B&Bs permitted prior to April 2017 that only serve a breakfast meal.

Enter the year.

A housekeeper states that she only uses a dust mop to clean the hard surface floors. Is a service sink required?

A. Yes

B. No

C. Maybe

A lodging facility built on December 31, 1988 is not required to provide a bathroom with handwashing sink and toilet in each guest room.

A. True

A hand hygiene program should include:

- A. Training requirements
- B. When/where to wash
- C. Handwashing procedures
- D. All of the above

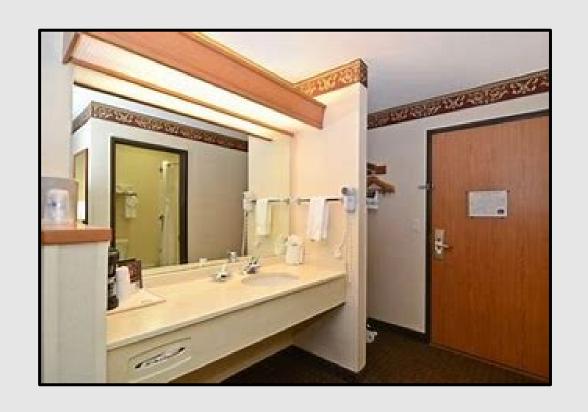

Physical Facilities

	WATER, PLUMBING AND WASTE (.1823, .1825, .1826)

- Plans shall be submitted to the local health department for review and approval:
 - Before beginning construction
 - Before additions or renovations
 - > Does not apply to cosmetic or non-structural changes to existing facilities
- Application for a permit or transitional permit submitted at least 30 days prior to opening
- Applicant must provide a statement detailing what type of food service will be offered to guests.

Informal Review (.1834)

- The permittee has a right to an informal review if there is a disagreement with a decision made by a REHS on the enforcement of the Rules
- Procedures for an informal review are outlined in this Rule

Finishing the Inspection

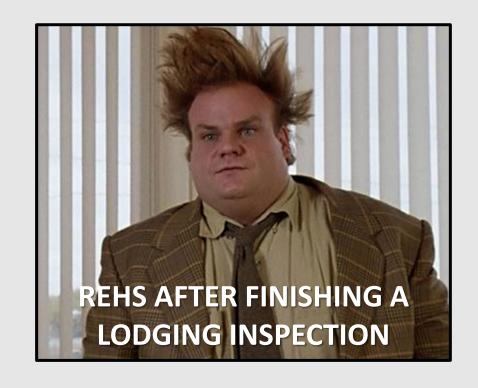

Filling Out the Inspection Report & Exit Interview

Proper Rule Citation & Number Marked

• <u>Use</u> the marking instructions to verify that citations are correct

Comments should document observed violations

Paperwork

- Demographical information is provided and correct
- Repeat violations are properly documented and marked on the inspection report
- Inspection reports are signed by REHS and authorized recipient
- Point deductions and score are correct

Finishing Up

- Exit interview is conducted with the manager or designee and paperwork is provided
- The explanation of violations and issues noted on the inspection report are clear and understandable
- The comments on the inspection report should be clear, complete, legible, free of spelling mistakes, and accurate
- Paperwork is filed properly and in a timely manner

Inspection Scenario

Welcome to Grand Motel!

Instructions

I will show you a picture of an observation and then I will pause for just a second before telling you where the observed violation would be marked on the inspection report

You may wish to pause me before I give the answer so you can find it for yourself using the lodging establishment inspection sheet and the marking instructions or the not clean/ poor repair matrix

The housekeeper stated that the coffee maker was clean, but not sanitized.

Dirty A/C unit filters in multiple rooms
