Manassas, VA 20108-0549

Subject: **Approval of Duplex Flow Equalization Panel**

Dear Mr. Valentine:

The Section received a submittal package for a duplex control panel to be used with Flow Equalization. After completing inspection and testing of the control panel, it has been found to meet the requirements of Innovative Approval #IWWS 2004-01.

Therefore, the following control panel model number for a duplex flow equalization control panel manufactured by American Manufacturing is approved:

DEPRAB124-AJLP(C)R

Please be aware that these panels are subject to periodic inspections, and should units be found to be in noncompliance with the submission or Innovative Approval, then the approval may be suspended or revoked. Please feel free to contact the On-Site Water Protection Section if you have any questions pertaining to this approval.

Sincerely,

Tricia Angoli
On-Site Wastewater Engineering
